

The world challenge

Stringent upcoming legislations are driving the industries to set more **challenging sustainability targets**.

Your challenge

Scope 3 goals of reducing greenhouse gas emissions have the highest impact on **total sustainability performance**.

Our solution

Ultra-low carbon footprint nylon made with bio-circular attributed materials.

-  **Use of bio-attributed feedstock**
-  **Certified LCA***
-  **Globally available at industrial scale**
-  **Consistent high quality**
-  **Drop-in solution**
